

Accommodation list

Night stay is not always available. Take a bus or taxi to the nearest town. Don't hesitate to ask if someone is willing to have you stay. This may stimulate people to start a homestay or B&B. Try to call the accommodation in advance Google maps provides phone numbers and information that is left out in the list. Avoid booking sites; they keep a large chunk of the price for themselves.

Camping is possible near virtually every village and in between. Ask in the villages.

Please inform us about changes, mistakes or new accommodations you noticed on your trip, preferably with the coordinates of the location.
